21 MAR 1975

**MEMORANDUM FOR: Associate Deputy to the DCI for the
Intelligence Community**

**SUBJECT : Material for the Senate
Select Committee**

1. We are rapidly approaching the point in time where Senate Select Committee Staffers will be visiting the Agency in pursuit of their investigation. I'm not sure a willful decision on the part of the Director has been ascertained to permit such visits; at any rate, we seem to be moving toward that end. That possibility, coupled with the fact that we are also preparing documentation to either provide them or to make it available to them, prompts me to raise the question of the security clearance status of such Staffers and whether or not, if so cleared, they have signed secrecy agreements.

2. You will recall that as a condition of exposure to Agency information and documentation, the Staffers were to be cleared and secrecy agreements executed. I believe the ball is in your court to insure that these prerequisites have been effected.

John N. McMahon
Associate Deputy Director
for
Administration

cc: Mr. Knoche
